- Postman

EXPERIENCE

Full Stack Developer **Sept 2022 - Dec 2022**
CodeOp | Barcelona, Spain

Three months of intensive full time bootcamp covering full stack technologies: JavaScript ES6+, React, ReactContext, API, Node.js, Express and MySQL, and more. Built 3 full stack projects.

Head of Youth Services **Feb 2018 - Sept 2022**
Howard Whittemore & Terryville Library

Supervised and trained staff of 9 and 15 volunteers. Oversaw short and long term budgets of $15k. Fostered 6 new partnerships within the community. Boosted attendance of programs by 35%.

Financial Consultant **Jan 2016 - Feb 2018**
AXA Advisors

Advised a total of $6 AUM in retirement accounts. Generated 15+ leads weekly. Communicated regularly with over 130 clients, using Salesforce. Maintained all related licensing, compliance, and training.

Classroom Teacher **Aug 2013 - Jan 2016**
Regional District 16

Developed instruction to meet diverse learning needs. Monitored student performance and prepared weekly reports to present at team meetings. Increased reading and math scores by 30%.

PROJECTS

Roadtrip Social Planner
December 2022

Built with: JavaScript, React, Node.js, Bootstrap

Worked with an international team to create a full stack app with 3rd party API integration and authorization.

Productivity Tracker
November 2022

Built with: JSON Web Token, Bcrypt, JavaScript, React, MySQL, Chakra UI

Inherited legacy code to implement authentication and authorization, allowing for user registration and login.

Monthly Expense Analysis
October 2022

Built with: JavaScript, React, Bootstrap, Express, Node.js, MySQL, REST APIs

Full stack app designed to monitor monthly expenses and establish personalized budgets for different categories.
